L'istruttore Ranza: «La disciplina è particolarmente indicata per la concentrazione». Verso la **Ryder Cup**

GOLF E AUTISMO: UN PROGETTO DI INCLUSIONE SPORTIVA A 360°

Nell'ambito del Progetto **Ryder Cup** 2022, la **Federgolf** ha patrocinato l'iniziativa per bambini affetti da spettro autistico, sviluppata da "Golfprogram" con la collaborazione dell'Associazione di volontariato "Una breccia nel muro" e il supporto del circolo romano Archi di Claudio Golf Club. Andrea Ranza, istruttore di Golfprogram, ne ha parlato ai microfoni di Radio Cusano Campus, durante la trasmissione Sport Academy. «Spesso il golf viene considerato d'élite ma è in realtà uno sport popolare, che può costare quanto andare in palestra, a differenza di ciò che accadeva anni fa. Ma soprattutto è uno sport dove convivono tutti. In questo ambito si inserisce il progetto di aiuto ai bambini autistici, perché abbiamo visto che la sua pratica si sta dimostrando particolarmente

L'istruttore di golf Andrea Ranza con Stefano Ranucci

te adatto per loro. Soprattutto per via della concentrazione a fasi». «È stata utilizzata un'attrezzatura specifica e non pericolosa con delle mazze da golf colorate - prosegue - e una parte ludica con dei gonfiabili. È stato particolarmente interessante vedere il loro miglioramento». Domani a Roma si terrà la conferenza stampa di "Golf4autism", presso la Sala Convegni dell'Associazione Civita, alla quale interverranno Gian Paolo Montali (direttore generale Progetto **Ryder Cup** 2022), Alberto Zuliani (presidente Associazione Una breccia nel muro), Andrea Ranza (Golf Program), Gianluca Cencia (Archi di Claudio Golf Club) e Niccolò Collini (coordinatore dell'area sanitaria della Fondazione Opera Santa Rita Onlus di Prato e direttore del Servizio ambulatoriale per l'autismo e la logopedia).
